

A photograph of two scientists in a cleanroom environment, wearing white protective suits, masks, and gloves. They are looking at a large screen or piece of equipment. The image is partially covered by a decorative pattern of green dots on the left side.

# Join our process engineering team and *impact the future* of technology!

Now hiring in **California** and **Oregon**

Join Lam and step into the world of cutting-edge technology. You'll work at the atomic scale, shaping materials, engineering surfaces, and pushing the boundaries of semiconductor manufacturing.

As a **Process Engineer**, you'll:

- *Develop innovative process solutions that power next-generation chips*
- *Optimize equipment hardware to meet processing needs*
- *Analyze test data and collaborate on design improvements*
- *Ensure seamless integration of breakthrough technologies*

Ready to join us? *Apply using the QR code below.*

Let's prove  
what's *possible.*
